TABLE OF CONTENTS

THE JOURNAL OF HORTICULTURAL SCIENCE, VOL. 72

NO. 1 (JANUARY 1997)

A. ORTIZ, R. RENAUD, I. CALZADA and E. RITTER: Analysis of plum cultivars with RAPD markers	1-9
A. TEWARI and U. DHAR: Studies on the vegetative propagation of the Indian butter tree (<i>Aisandra butyracea</i> (Roxb.) Baehni)	11-17
R. A. STERN, D. EISENSTEIN, H. VOET and S. GAZIT: Female 'Mauritius' litchi flowers are not fully mature at anthesis	19-25
M. MATHEWS, M. L. WEE and K. K. HO: Growth and development of aerial roots of a tropical ornamental, <i>Philodendron lacerum</i>	27-34
E. FALLIK, SHOSHANA GRINBERG and O. ZIV: Potassium bicarbonate reduces postharvest decay development on bell pepper fruits	35-41
D. M. YEH and J. G. ATHERTON: Manipulation of flowering in cineraria. I. Effects of photoperiod	43-54
D. M. YEH and J. G. ATHERTON: <i>Idem</i> . II. Juvenility.. .. .	55-66
M. RAHEMI, F. G. DENNIS, JR., R. L. ANDERSEN, J. O. OZGA and R. X. XIA: The role of ethylene in apple fruit set	67-75
HENRIEKE A. DE RUITER: Axillary bud formation in chrysanthemum as affected by the number of leaves	77-82
MARIA J. GROCHOWSKA and MALGORZATA HODUN: The dwarfing effect of a single application of growth inhibitors to the root-stem connection - "the collar tissue" - of five species of fruit trees	83-91
SUSAN LURIE, A. BEN PORAT, ZORIA LAPSKER, Y. ZUTHI, Y. GREENBLAT and RUTH BEN ARIE: Effect of spring applications of paclobutrazol and uniconazole on 'Red Rosa' plum fruit development and storage quality	93-99
C. RINALLO: Effects of rain acidity on oxalate content of leaves of <i>Actinidia</i>	101-108
X. R. LIAO, M. C. ZHU and P. C. HE: Application of seed protein components in cluster analysis of Chinese <i>Vitis</i> plants	109-115
A. ACHER, BRURIA HEUER, EMILIA RUBINSKAYA and E. FISCHER: Use of ultraviolet-disinfected nutrient solutions in greenhouses.. .. .	117-123
D. C. HARRIS, D. W. SIMPSON and J. A. BELL: Studies on the possible role of micro-propagation in the dissemination of the strawberry crown rot pathogen <i>Phytophthora cactorum</i>	125-133
A. J. DAYMOND, T. R. WHEELER, P. HADLEY, R. H. ELLIS and J. I. L. MORISON: The growth, development and yield of onion (<i>Allium cepa</i> L.) in response to temperature and CO ₂	135-145
L. BURGOS, J. EGEA, R. GUERRIERO, R. VITI, P. MONTELEONE and J. M. AUDERGON: The self-compatibility trait of the main apricot cultivars and new selections from breeding programmes	147-154
T. B. TOLDAM-ANDERSEN and P. HANSEN: Growth and development in black currant (<i>Ribes nigrum</i>). III. Seasonal changes in sugars, organic acids, chlorophyll and anthocyanins and their possible metabolic background.. .. .	155-169
FORTHCOMING PAPERS	170

SALLY A. BOUND and K. M. JONES: Investigating the efficacy of endothal as a chemical thinner of red 'Delicious' apple	171-177
F. J. EDE, M. AUGER and T. G. A. GREEN: Optimizing root cutting success in <i>Paulownia</i> spp.	179-185
S. HIEKE, A. P. GEORGE, T. RASMUSSEN and P. LÜDDERS: Effects of plastic soil mulch and cloches on fruit growth and development of low-chill peach cv. Flordaprince (<i>Prunus persica</i> (L.) Batsch) in subtropical Australia	187-193
M. T. N. KOOL: Importance of plant architecture and plant density for rose crop performance	195-203
KSHANIKA HIRIMBUREGAMA and NIRANJALI GAMAGE: Cultivar specificity with respect to <i>in vitro</i> micropropagation of <i>Musa</i> spp. (banana and plantain) ..	205-211
J. ZEBROWSKA: Factors affecting pollen grain viability in the strawberry (<i>Fragaria</i> × <i>ananassa</i> Duch.).. .. .	213-219
S. KONDO and K. INOUE: Absciscic acid (ABA) and 1-aminocyclopropane-1-carboxylic acid (ACC) content during growth of 'Satohnishiki' cherry fruit, and the effect of ABA and ethephon application on fruit quality	221-227
J.-P. RENOU, C. AUBRY, M. SERVEAU and P. JALOUZOT: Evaluation of the genetic variability in the genus <i>Pelargonium</i> using RAPD markers	229-237
GILLIAN GOODLASS, C. RAHN, M. A. SHEPHERD, A. G. CHALMERS and FRANCES M. SEENEY: The nitrogen requirement of vegetables: Comparisons of yield response models and recommendation systems	239-254
E. NYAKWENDE, C. J. PAULL and J. G. ATHERTON: Non-destructive determination of leaf area in tomato plants using image processing	255-262
P. OBARA-OKEYO and S. KAKO: <i>In vitro</i> and <i>in vivo</i> characterization of <i>Cymbidium</i> cultivars by isozyme analysis	263-270
F. NEROZZI, FEDERICA ROSSI, O. FACINI and T. GEORGIADIS: Light transmittance and sunlit leaf area estimation in a peach canopy	271-283
R. BOOIJ, A. D. H. KREUZER, A. L. SMIT and A. VAN DER WERF: Effects of nitrogen availability on the biomass and nitrogen partitioning in Brussels sprouts (<i>Brassica oleracea</i> var. <i>gemmifera</i>)	285-297
T. LA MANTIA, G. BARBERA and P. INGLESE: Effect of cladode shading on growth and ripening of fruits of cactus pear (<i>Opuntia ficus-indica</i> L. Miller)	299-304
W. P. SNELGAR, P. J. MANSON and H. G. MCPHERSON: Evaluating winter chilling of kiwifruit using excised canes	305-315
J. A. MERCADO, M. MAR TRIGO, M. S. REID, V. VALPUESTA and M. A. QUESADA: Effects of low temperature on pepper pollen morphology and fertility: Evidence of cold induced exine alterations	317-326
JANE R. FELLOWS, R. J. READER and D. C. E. WURR: A model for leaf production and apex development in calabrese	327-337
S. SALAZAR-GARCIA and V. VAZQUEZ-VALDIVIA: Physiological persistence of paclobutrazol on the 'Tommy Atkins' mango (<i>Mangifera indica</i> L.) under rainfed conditions	339-345
FORTHCOMING PAPERS	346

C. BUSSI, A. GOJON and L. PASSAMA: <i>In situ</i> nitrate reductase activity in leaves of adult peach trees	347-353
S. ZILKAH, SUSAN LURIE, Z. LAPSKER, Y. ZUTHI, I. DAVID, Y. YESSELSOHN, S. ANTMAN and R. BEN ARIE: The ripening and storage quality of nectarine fruits in response to preharvest application of gibberellic acid	355-362
M. T. MUÑOZ, M. I. ESCRIBANO and CARMEN MERODIO: Ethanolic metabolism in cherimoya fruit during storage at ambient and under high CO ₂ atmospheres ..	363-370
M. SCHIRRA, G. BARBERA, G. D'HALLEWIN, P. INGLESE and T. LA MANTIA: Storage response of cactus pear fruit to CaCl ₂ preharvesting spray and postharvest heat treatment	371-377
D. M. YEH, J. G. ATHERTON and J. CRAIGON: Manipulation of flowering in cineraria. III. Cardinal temperatures and thermal times for vernalization ..	379-387
K. ECKSTEIN, J. C. ROBINSON and C. FRASER: Physiological responses of banana (<i>Musa</i> AAA; Cavendish sub-group) in the subtropics. VII. Effects of windbreak shading on phenology, physiology and yield	389-396
D. J. ROE, C. M. MENZEL, J. H. OOSTHUIZEN and V. J. DOOGAN: Effects of current CO ₂ assimilation and stored reserves on lychee fruit growth.. .. .	397-405
F. MENCARELLI, R. MASSANTINI and R. BOTONDI: Physiological and textural responses of truffles during low-temperature storage	407-414
J. G. M. VOS and N. SUMARNI: Integrated crop management of hot pepper (<i>Capsicum</i> spp.) under tropical lowland conditions: Effects of mulch on crop performance and production	415-424
MICHAEL OREN-SHAMIR AND A. LEVI-NISSIM: Temperature effects on the leaf pigmentation of <i>Cotinus coggygia</i> 'Royal Purple'	425-432
M. CONCEPCION SANCHEZ, M. CARMEN SAN-JOSE, E. FERRO, A. BALLESTER and ANA M. VIEITEZ: Improving micropropagation conditions for adult-phase shoots of chestnut	433-443
RENATE MÜLLER, MARGRETHE SEREK, E. C. SISLER and A. SKYTT ANDERSEN: Poststorage quality and rooting ability of <i>Epipremnum pinnatum</i> cuttings after treatment with ethylene action inhibitors	445-452
M. CAPUANA and R. GIANNINI: Micropropagation of young and adult plants of cypress (<i>Cupressus sempervirens</i> L.).. .. .	453-460
R. E. McDONALD, P. D. GREANY, P. E. SHAW and T. G. MCCOLLUM: Preharvest applications of gibberellic acid delay senescence of Florida grapefruit	461-468
A. D. WEBSTER and ANN LUCAS: Sweet cherry rootstock studies: Comparisons of <i>Prunus cerasus</i> L. and <i>Prunus</i> hybrid clones as rootstocks for Van, Merton Glory and Merpet scions.. .. .	469-481
R. MULEO and B. THOMAS: Effects of light quality on shoot proliferation of <i>Prunus cerasifera</i> <i>in vitro</i> are the result of differential effects on bud induction and apical dominance	483-491
S. MUKHOPADHYAY, JAISHREE RAI, B. C. SHARMA, ANITA GURUNG, R. K. SENGUPTA and P. S. NATH: Micropropagation of Darjeeling orange (<i>Citrus reticulata</i> Blanco) by shoot-tip grafting	493-499
D. W. SIMPSON: Obituary notice: Pasquale Rosati	501
FORTHCOMING PAPERS	502

S. PEARSON, T. R. WHEELER, P. HADLEY and A. E. WHELDON: A validated model to predict the effects of environment on the growth of lettuce (<i>Lactuca sativa</i> L.): Implications for climate change	503-517
P.-E. LAURI, E. TEROUANNE and J.-M. LESPINASSE: Relationship between the early development of apple fruiting branches and the regularity of bearing — An approach to the strategies of various cultivars	519-530
ANNA MARIA CARAFA and G. CARRATU: Stigma treatment with saline solutions: A new method to overcome self-incompatibility in <i>Brassica oleracea</i> L.	531-535
MARIA G. BARBAGALLO, R. DI LORENZO, R. MELI and F. G. CRESCIMANNO: Characterization of carob germplasm (<i>Ceratonia siliqua</i> L.) in Sicily	537-543
D. M. YEH, J. G. ATHERTON and J. CRAIGON: Manipulation of flowering in cineraria. IV. Devernalization	545-551
R. W. F. CAMERON and G. R. DIXON: Air temperature, humidity and rooting volume affecting freezing injury to <i>Rhododendron</i> and other perennials	553-562
J. S. SEMANCIK, A. G. RAKOWSKI, J. A. BASH and D. J. GUMPF: Application of selected viroids for dwarfing and enhancement of production of 'Valencia' orange	563-570
D. GERASOPOULOS and D. G. RICHARDSON: Differential propylene induced ethylene production in 'Anjou' pears during storage at chilling and non-chilling temperatures	571-575
E. AIT BARKA and J. C. AUDRAN: Response of champenoise grapevine to low temperatures: Change of shoot and bud proline concentrations in response to low temperatures and correlations with freezing tolerance	577-582
J. G. CHEN, H. Y. ZHAO, X. ZHOU, L. S. MAO and X. X. CHEN: Changes in levels of endogenous hormones in azalea released from apical dominance	583-591
A.-A. F. DE ALMEIDA and M. MAESTRI: Photosynthetic oxygen evolution by four <i>Coffea arabica</i> genotypes subjected to a dehydration/rehydration cycle.. ..	593-599
D. A. CHAMBERS and D. C. HARRIS: Methods of screening <i>Acer platanoides</i> L. seedlings for resistance to wilt (<i>Verticillium dahliae</i> Kleb.)	601-608
R. A. STERN, M. NADLER and S. GAZIT: 'Floridian' litchi yield is increased by 2,4,5-TP spray	609-615
KEIICHI NOMURA, H. TERAJ, K. YABE, M. MAEDA, M. S. M. RAHMAN, M. YOSHIDA and J. Y. YONEMOTO: Comparison of changes in sugars and ethylene production of cherimoya fruit grown at different seasons	617-622
M. T. N. KOOL, R. DE GRAAF and C. H. M. ROU-HAEST: Rose flower production as related to plant architecture and carbohydrate content: Effect of harvesting method and plant type	623-633
M. T. N. KOOL and E. F. A. LENSSEN: Basal-shoot formation in young rose plants: Effects of bending practices and plant density	635-644
S. M. SOUTHWICK, J. T. YEAGER and K. G. WEIS: Use of gibberellins on 'Patterson' apricot (<i>Prunus armeniaca</i>) to reduce hand thinning and improve fruit size and firmness: Effects over three seasons	645-652
M. AGUSTI, V. ALMELA, S. ZARAGOZA, R. GAZZOLA and E. PRIMO-MILLO: Alleviation of peel-pitting of 'Fortune' mandarin by the polyterpene pinolene	653-658
R. A. STERN and S. GAZIT: Effect of 3,5,6-trichloro-2-pyridyl-oxyacetic acid on fruitlet abscission and yield of 'Mauritius' litchi (<i>Litchi chinensis</i> Sonn.) ..	659-663
FORTHCOMING PAPERS	664

J. VERAMENDI and L. NAVARRO: Influence of explant sources of adult date palm (<i>Phoenix dactylifera</i> L.) on embryogenic callus formation	665-671
H. SALEHI and M. KHOSH-KHUI: Effects of explant length and diameter on <i>in vitro</i> shoot growth and proliferation rate of miniature roses	673-676
S. C. GORDON, M. R. CORMACK and CHRISTINE A. HACKETT: Arthropod contamination of red raspberry (<i>Rubus idaeus</i> L.) harvested by machine in Scotland	677-685
Y.-Y. FORD and R. S. HARRISON-MURRAY: Water transport through the roots of ornamental shrub cuttings	687-696
B. H. HOWARD and WENDY OAKLEY: Bud-grafting success in <i>Acer platanoides</i> 'Crimson King' related to root growth	697-704
S. SHIOZAKI, T. MIYAGAWA, T. OGATA, S. HORIUCHI and K. KAWASE: Differences in cell proliferation and enlargement between seeded and seedless grape berries induced parthenocarpically by gibberellin	705-712
PIOUS THOMAS and M. B. RAVINDRA: Shoot tip culture in mango: Influence of medium, genotype, explant factors, season and decontamination treatments on phenolic exudation, explant survival and axenic culture establishment	713-722
E. A. CURRY: Temperatures for optimum anthocyanin accumulation in apple tissue	723-729
S. PEREIRA-LORENZO and J. FERNANDEZ-LOPEZ: Propagation of chestnut cultivars by grafting: Methods, rootstocks and plant quality	731-739
W. LETCHAMO and S. MUKHOPADHYAY: Variability in chromosomes, herb yield, essential oil content and potentials of horehound for North American commercial production	741-748
R. DIAZ-SOBAC, J. DE LA CRUZ, ALMA VASQUEZ LUNA, C. I. BERISTAIN and H. S. GARCIA: Evaluation of softening and associated enzyme activities during the ripening of coated 'Manila' mangoes	749-753
SUZAN E. HETHERINGTON: Profiling photosynthetic competence in mango fruit	755-763
A. NAOR, I. KLEIN, I. DORON, Y. GAL, Z. BEN-DAVID and B. BRAVDO: The effect of irrigation and crop load on stem water potential and apple fruit size	765-771
J. S. KAMBOJ, G. BROWNING, J. D. QUINLAN, P. S., BLAKE and D. A. BAKER: Polar transport of [³ H]-IAA in apical shoot segments of different apple rootstocks	773-780
A. K. ASANTE and J. R. BARNETT: Graft union formation in mango (<i>Mangifera indica</i> L.)	781-790
M. LIS-BALCHIN: A chemotaxonomic study of the <i>Pelargonium</i> (Geraniaceae) species and their modern cultivars	791-795
J. A. FRANCO and J. M. ABRISQUETA: A comparison between minirhizotron and soil coring methods of estimating root distribution in young almond trees under trickle irrigation	797-805
M. RAM, R. SINGH, A. A. NAQVI and S. KUMAR: Effect of planting time on the yield and quality of essential oil in geranium <i>Pelargonium graveolens</i>	807-810
J. TROMP: Maturity of apple cv. Elstar as affected by temperature during a six-week period following bloom	811-819
M. NAVARRETE, B. JEANNEQUIN and M. SEBILLOTTE: Vigour of greenhouse tomato plants (<i>Lycopersicon esculentum</i> Mill.): Analysis of the criteria used by growers and search for objective criteria	821-829
FORTHCOMING PAPERS	830

S. C. GORDON, J. A. T. WOODFORD and A. N. E. BIRCH: Review Article: Arthropod pests of <i>Rubus</i> in Europe: Pest status, current and future control strategies ..	831-862
G. ROSELLI, C. CANTINI and P. MARIOTTI: Susceptibility to peach leaf curl (<i>Taphrina deformans</i> Berk.) Tul. in a peach germplasm collection	863-872
T. CARUSO, D. GIOVANNINI, F. P. MARRA and F. SOTTILE: Two new planting systems for early ripening peaches (<i>Prunus persica</i> L. Batsch): Yield and fruit quality in four low-chill cultivars	873-883
M. E. BALIBREA, E. CAYUELA, F. ARTÉS and F. PÉREZ-ALFOCEA: Salinity effects on some postharvest quality factors in a commercial tomato hybrid	885-892
J. A. MERCADO, B. VIÑEGLA and M. A. QUESADA: Effects of hand-pollination, paclobutrazol treatments, root temperature and genotype on pollen viability and seed fruit content of winter-grown pepper	893-900
G. REN, F. CHEN, H. LIAN, J. ZHAO and X. GAO: Changes in hormone content of <i>Panax quinquefolium</i> seeds during stratification.. .. .	901-906
ANNETTE C. RICHARDSON, K. J. MCANENEY and T. E. DAWSON: Carbohydrate dynamics in kiwifruit	907-917
ANNETTE C. RICHARDSON, K. B. MARSH and E. A. MACRAE: Temperature effects on satsuma mandarin fruit development	919-929
J. AHMAD and C. MARSHALL: The pattern of ¹⁴ C-assimilate distribution in chrysanthemum cv. Red Delano with particular reference to branch interrelations	931-940
MAHESWARY VELLUPILLAI, SANJAY SWARUP and CHONG JIN GOH: Histological and protein changes during early stages of seed germination in the orchid, <i>Dendrobium crumenatum</i>	941-948
A. J. HALL and H. G. MCPHERSON: Predicting fruit maturation in kiwifruit (<i>Actinidia deliciosa</i>)	949-960
RAFFAELLA VITI, P. MONTELEONE and R. GUERRIERO: Incompatibility in apricot (<i>Prunus armeniaca</i> L.): Methodological considerations	961-970
K. TU, K. WALDRON, L. INGHAM, T. DE BARSY and J. DE BAERDEMAEKER: Effect of picking time and storage conditions on 'Cox's Orange Pippin' apple texture in relation to cell wall changes	971-980
K. A. METTANANDA and R. FORDHAM: The effects of 12 and 16 hour daylength treatments on the onset of bulbing in 21 onion cultivars (<i>Allium cepa</i> L.) and its application to screening germplasm for use in the tropics	981-988
J. Q. YU, H. KOMADA, H. YOKOYAMA, M. YAMAMOTO, T. TERADA and Y. MATSUI: Sugi (<i>Cryptomeria japonica</i> D. Don) bark, a potential growth substrate for soil-less culture with bioactivity against some soilborne diseases.. .. .	989-996
FORTHCOMING PAPERS	997
